EYEWEAR WITH BACKBONE

- SPINE 2.0 hinges grip all day long, morphing to fit any face shape or head size.
 - *Our rotary temple motion opens and closes smoothly without flicking or traditional “dead” points
- There are no screws loose here - because there are no screws used in our SPINE hinge working mechanics.
- SPINE 2.0 offers two totally unique and patented multidirectional smart hinges. Both help stabilise prescriptions, improve consumer lens clarity & enhance comfort.
- Available in 7.5mm and 4.5mm sizes.
